Clinical

Audience

This conference is designed for physicians and paramedical professionals engaged in primary care.

Educational Objectives

This program will provide information on the most recent advances in primary care with emphasis on technological knowledge.

- Practice evidence based approaches to patients with seizures, migraine headaches, metabolic syndrome, and diabetes.
- Learn and understand management of congestive heart failure, dyslipidemia, and coronary artery disease.
- Become aware of orthopedic changes related to the aging process.
- Explore new trends of sports medicine and treatment of low back pain.
- Informative exploration of the newest innovation in gynecological practice – robotic surgery.
- Understand new concepts and treatments on oral contraceptives, stroke, and dizziness.
- Discuss new trends in the management of tuberculosis and MRSA.
- Emphasize new concepts on oral contraceptives and new asthma guidelines.
- Inform clinicians on the common surgical practices in the rural areas.
- Understand the cannabinoid system.

Accreditation

This activity has been reviewed and is acceptable for up to 12.00 Prescribed credits by the American Academy of Family Physicians.

Disclosure Policy

The content and views in this educational program are those of the faculty and do not necessarily reflect those of the sponsoring organization – PMMA.

This program is in complete compliance with the American Council for Continuing Medical Education (ACCME) standard of commercial support.

Accommodation

A block of rooms has been reserved at the Kalahari Resort & Convention Center for a special rate. To avail of the group rate, please call 1-877-253-5466 by July 23 and ask for the PMMA 2007 room block.
